One year, on Christmas eve, a girl called Eve was just moving in because of conflict. She moved to America so she and her big sister ^{Alex} could stay somewhere safe.

Chapter 2 Gold surprise

Quickly, Eve's sister opened the new house door so Eve could see her new room. After she saw the living room and kitchen, she ecstatically ran up the stairs to see her room. "Alex, my room looks amazing!" said Eve

When her sister saw the room, Eve explored her room to see what her sister did to it. All of a sudden, in her closet, she saw a brown box that said Pandora. She tried to open the box but she found out there was a key hole. Somewhere in her room was the key.

Every day, she dreamed about it and looked for it but no luck. Until a day later, she found a dusty key.

"This is the key" said Eve.

She cleaned the key and tried it out. She saw those shiny gold medals that looked good of the theme of the room.

Chapter 3 : Scream

After the first day of school, Eve asked her sister to hang ^{the medals} them up on the left side of the room.

Now it was night, Eve had to sleep for the next day of school. A Shingle started to get unicumgtooble. Soon after a horrifying thing happened.

"Auh!" screamed Eve

"Are you okay?" said her sister

And for all of that night, she slept with her sister in the living room.

Chapter 4 school topic

After it was 9 am, it was time for Eve to go school. On the way to school with her new friends, she told them about the horrifying dream she had. In class, it was time for the weekend story of the day. It was Eve's turn. She gathered up all her courage to say about her dream.

"I had a dream, about monsters in a dark room" said Eve.

In the circle play room, two boys started saying that monsters aren't real and that she's scary. Eve started crying.

"How do you know" asked Eve

"Miss told all of the school because she thought it was funny" said one of the boys

Chapter 5 Pandora's secret

"Eve!" hollered Alex.

"What" said Eve

"Just take the Pandora box with you" said Alex.

"OK" said Eve.

Alex had a plan to go to the museum so they could research where the box came from and why it was in her closet. On the way to the museum, Eve had an idea to ~~she~~ check on the internet first before they waste their time going to the museum ^{but} ~~nothing~~. They signed in and they talked about the jewelry. After the researchers researched the topic, they gave Alex and Eve the form.
