

# The Royal Society of Wildlife Trusts, known as The Wildlife Trusts

*“RSWT operates as an umbrella body for the 47 individual Wildlife Trusts, covering the whole of the UK, the Isle of Man and Alderney. The Wildlife Trusts manage around 2,300 nature reserves and run marine conservation projects around the coast.*

*RSWT is also a separate charity in its own right with the stated aim 'to promote the conservation and study of nature, and to educate the public in understanding and appreciating nature'.*“

We are delighted that The Wildlife Trust are keen to promote National Share a Story Month and work with groups in sharing stories in unusual places. Visit their very useful website to find a Wildlife Trust near you and contact them if you are inspired to hold an outside story sharing event. Some of the Trusts are planning story sharing events of their own and would be pleased if a book group got involved.
